SUBJECT: Contractor EHS Process		

NA SP 05 211E – “Contractor EHS Performance”

This policy has been prepared for the purpose of communicating safe work practices and the Tower Automotive (Tower) Environmental Policy at Tower facilities.

NA SP 05 211A – “Contractor Methods Assessment” –

This form is to be completed by contractor prior to arriving on-site to begin work. Completed forms should be presented to and approved by the Tower International Plant Engineering Manager or designated management representative before ANY work begins.

NA SP 05 211C – “Contractor Checklist”

This form is to be completed by the Tower International Plant Engineering Manager or designated management representative with Contractor on-site prior to beginning work.

NA SP 05 211D – “Environmental Services Agreement”

This Agreement is for Waste Transportation, Disposal, and Treatment Vendors ONLY, and must be filled out and returned to the Tower International Plant Engineering Manager or designated management representative BEFORE any work is done on-site, or waste is accepted for transportation, treatment, or disposal.
